Very warm morning. Josephine did very well last evening gave good satisfaction. Saw Bright for \$100<sup>00</sup>.

My daughter's last evening performance is highly spoken of by the best competent judges.

I had much rather she might be "little and unknown loved and prized by God alone" than to be borne upon the wings of fame to the ends of the earth. And that I doubt her intense love for the ever blessed Saviour.

My prayer is that she may do much good, in life and in peace and join the blessed ones that have crossed the flood.

MONDAY, AUGUST 5, 1872.

The first thing I saw  
 upon getting up this  
 morning was a beautiful  
 view of the mountains  
 and the valley below.  
 The air was cool and  
 fresh, and the sun was  
 shining brightly. I  
 felt very comfortable  
 and happy. The  
 mountains were very  
 high and steep, and  
 the valley was very  
 fertile. I saw many  
 fields of wheat and  
 corn, and many  
 houses and farms.  
 It was a very  
 beautiful scene, and  
 I was very glad to  
 see it.

TUESDAY, AUGUST 6, 1872.

Some more things  
 happened today. I  
 went to the store

Pleasant fine weather  
 I used the Guyton bar  
 at 8-11 some very good  
 things. We attempted to prove  
 that the earth indicated the  
 former location of the river  
 But I think the Earth's surface  
 is insufficient to contain the water  
 and millions of glorified bodies  
 require the space of the present  
 again - the corners are used  
 - So then 4 corners are used  
 - Therefore the Hampton is in some  
 central point.

No meeting to night
